

MERCEDES PLACE PROJECT
Canfield Township, Mahoning County
MAH-Mercedes Place (PID 101898)

June 2018

Canfield Township Trustees, in cooperation with the Ohio Department of Transportation, District 4 proposes the installation of Gabion Baskets and additional aggregate along an unnamed tributary to Indian Run on the southern edge of the property located at 3765 Mercedes Place, Canfield Township, Mahoning County, Ohio.

The project proposes the installation of 102 linear feet of Gabion Baskets along the northern embankment of the stream channel and the re-establishment of vegetative cover and placement of aggregate along the toe-of-slope of the southern embankment of the stream channel to stop erosion and stabilize the embankment. Additional improvements include concrete slab work and asphalt resurfacing. Construction has begun on this project and should be completed by July 2018.

All comments, questions and/or concerns about the project are welcomed and should be directed to:
